

Color a Valentine's Card for your Mom or Dad or Best Friend!

1. Print your favorite from the card options provided.
2. Fold along the lines to create a card with the illustration on the front and a special message inside.
3. Color the card using your favorite colors. Princess Cassandra loves green, so she wanted a great green frog for her perfect pet... but there are so many different kinds of frogs in the world--in almost every color imaginable! You can color your frog with your favorite colors. It doesn't have to be green.
4. Write a special message on the blank page inside, if you want.
5. Sign your name, and then give your card to your special someone for Valentine's Day!
